BBA

Lipids and Lipid Metabolism

Vol. 1084, 1991

Cumulative Contents

Regular Papers

Chemical synthesis and surface activity of lung surfactant phospholipid analogs. II. Racemic *N*-substituted diether phosphonolipids
J.G. Turcotte, W.H. Lin, P.E. Pivarnik, A.M. Sacco, S.S. Shirali, M.M. Bermel, Z. Lu and R.H. Notter (U.S.A.) 1

The *cis/trans* isomerization of the double bond of a fatty acid as a strategy for adaptation to changes in ambient temperature in the psychrophilic bacterium, *Vibrio* sp. strain ABE-1
H. Okuyama, N. Okajima, S. Sasaki, S. Higashi and N. Murata (Japan) 13

Ca^{2+}-independent phospholipase A_2 activity associated with secretory granular membranes in rat parotid gland
M. Mizuno, Y. Kameyama and Y. Yokota (Japan) 21

Small unilamellar liposomes from mixed natural and polymeric phospholipids: stability and susceptibility to phospholipase A_2
D.E. Davies, M. Critchlow, D.W. Grainger, A. Reichert, H. Ringsdorf and J.B. Lloyd (U.K., F.R.G) 29

A two component-type cytochrome *P*-450 monooxygenase system in a prokaryote that catalyzes hydroxylation of ML-236B to pravastatin, a tissue-selective inhibitor of 3-hydroxy-3-methylglutaryl coenzyme A reductase
N. Serizawa and T. Matsuoka (Japan) 35

Biological effects of 1-acyl-2-acetyl-*sn*-glycero-3-phosphocholine in the human neutrophil
M. Triggiani, D.W. Goldman and F.H. Chilton (U.S.A.) 41

Involvement of diminution of glutathione, produced by deficiency of methionine in the diet, in the elevation of malic enzyme level in rat liver
A. Ayala, E. Gordillo, A. Castaño, M.-F. Lobato and A. Machado (Spain) 48

Growth-associated changes in fatty acid compositions of nuclear phospholipids of liver cells
H. Ishihara, K. Tamiya-Koizumi, H. Kuriki, S. Yoshida and K. Kojima (Japan) 53

Hepoxilin A_3 (HxA_3) is formed by the rat aorta and is metabolized into HxA_3-C, a glutathione conjugate
O. Laneuville, E.J. Corey, R. Couture and C.R. Pace-Asciak (Canada, U.S.A.) 60

Cytidylyltransferase translocation onto endoplasmic reticulum and increased de novo synthesis without phosphatidylcholine accumulation in Krebs-II ascite cells
F. Tercé, M. Record, H. Tronchère, G. Ribbes and H. Chap (France) 69

Regulation of the phosphoinositide cycle by Na^+/H^+ exchange and intracellular pH in human platelets
G. Luzzatto, M.H. Kroll, G.B. Zavoico and A.I. Schafer (U.S.A.) 78

Metabolism of 3-[^{3}H]sphingosine sphingomyelin labeled with [^{14}C]palmitic or [^{14}C]linoleic acid by Hep G_2 cells and rat liver in vivo
Y. Stein, K. Oette, Y. Dabach, G. Hollander, M. Ben-Naim and O. Stein (Israel, F.R.G.) 87

SV-40 transformation: effect on GM2 ganglioside in cultured cell lines
L.M. Hoffman, S.E. Brooks, M.R. Stein and L. Schneck (U.S.A.) 94

Rapid Report

Definition of total biosynthesis pathway of taurolipids in *Tetrahymena* cells
K. Kaya and T. Sano (Japan) 101

Review

Phospholipid fatty acid remodeling in mammalian cells
J.I.S. MacDonald and H. Sprecher (U.S.A.) 105

Regular Papers

Feeding rats a diet enriched with saturated fatty acids prevents the inhibitory effects of acute

and chronic ethanol exposure on the in vitro uptake of hexoses and lipids
A.B.R. Thomson, M. Keelan and M.T. Clandinin (Canada) 122

Increased levels of monohydroxy metabolites of arachidonic acid and linoleic acid in LDL and aorta from atherosclerotic rabbits
T. Wang and W.S. Powell (Canada) 129

Enhancing effects of bile salts on the degradation of glycosphingolipids by glycosidases from bacteria of the human fecal flora
P. Falk, L.C. Hoskins and G. Larson (Sweden, U.S.A.) 139

Further studies on the purine phosphoribosyltransferase 'burst' velocity reaction
C. Montero and P. Llorente (Spain) 149

Phospholipase D-catalyzed hydrolysis of phosphatidylcholine occurs with P–O bond cleavage
P.G. Holbrook, L.K. Pannell and J.W. Daly (U.S.A.) 155

Regulation of the uptake of high-density lipoprotein-originated cholesteryl ester by HepG2 cells: role of low-density lipoprotein and plasma lipid transfer protein
G.A. Francis, K.W.S. Ko, H. Hara and S. Yokoyama (Canada) 159

The catabolism of exogenous lysophosphatidylcholine in isolated perfused rat and guinea pig hearts: a comparative study
T. Mock and R.Y.K. Man (Canada) 167

The fatty acid composition of placenta in intrauterine growth retardation
P. Percy, G. Vilbergsson, A. Percy, J.-E. Månsson, M. Wennergren and L. Svennerholm (Sweden) 173

Differential actions of diacyl- and alkylacylglycerols in priming phospholipase A_2, 5-lipoxygenase and acetyltransferase activation in human neutrophils
S.A. Bauldry, R.L. Wykle and D.A. Bass (U.S.A.) 178

Inhibition of phosphatidylcholine and phosphatidylethanolamine biosynthesis by cytochalasin B in cultured glioma cells: potential regulation of biosynthesis by Ca^{2+}-dependent mechanisms
T.P. George, H.W. Cook, D.M. Byers, F.B.S.C. Palmer and M.W. Spence (Canada) 185

BBA Report

Effect of pancreatic phospholipase A_2 and gastric lipase on the action of pancreatic carboxyl ester lipase against lipid substrates in vitro
M.B. Lindström, J. Persson, L. Thurn and B. Borgström (Sweden) 194

Rapid Reports

Oxidation of low-density lipoprotein by copper and iron in phosphate buffer
M. Kuzuya, K. Yamada, T. Hayashi, C. Funaki, M. Naito, K. Asai and F. Kuzuya (Japan) 198

Analysis of non-heme iron in arachidonate 12-lipoxygenase of porcine leukocytes
S. Matsuda, H. Suzuki, T. Yoshimoto, S. Yamamoto and A. Miyatake (Japan) 202

Reviews

Lecithin-cholesterol acyltransferase in the metabolism of high-density lipoproteins
A. Jonas (U.S.A.) 205

Recent investigations into the lipoxygenase pathway of plants
H.W. Gardner (U.S.A.) 221

Regular Papers

Kinetic control of steroidogenesis by steroid concentration in guinea pig adrenal microsomes
A. Higuchi, S. Kominami and S. Takemori (Japan) 240

Effect of indomethacin on the uptake, metabolism and excretion of 3-oxocholic acid: studies in isolated hepatocytes and perfused rat liver
H. Takikawa, J.C. Fernandez-Checa, J. Kuhlenkamp, A. Stolz, M. Ookhtens and N. Kaplowitz (Japan, U.S.A.) 247

The effect of $n-3$ fatty acids on osmotic fragility of rat erythrocytes
T.-A. Hagve, Y. Johansen and B. Christophersen (Norway) 251

Δ^5-Desaturation of dihomogammalinolenic acid ($20:3(n-6)$) into arachidonic acid ($20:4(n-6)$) by rat liver microsomes and incorporation of fatty acids in microsome phospholipids
J.P. Blond and J. Bézard (France) 255

UVA-induced lipid peroxidation in cultured human fibroblasts
P. Morlière, A. Moysan, R. Santus, G. Hüppe, J.-C. Mazière and L. Dubertret (France) 261

Synthesis of phosphatidylinositol in rat liver microsomes is accompanied by the rapid formation of lysophosphatidylinositol
J.C. Darnell, D.G. Osterman and A.R. Saltiel (U.S.A.) 269

Fatty acid remodelling of phosphatidylinositol under conditions of de novo synthesis in rat liver microsomes
J.C. Darnell, D.G. Osterman and A.R. Saltiel (U.S.A.) 279

Coenzyme A-dependent, ATP-independent acylation of 2-acyl lysophosphatidylinositol in rat liver microsomes
J.C. Darnell and A.R. Saltiel (U.S.A.) 292

Rapid Reports

Effect of estrogen and progesterone on the hepatic cholesterol 7α-hydroxylase activity in ovariectomized baboons
R.S. Kushwaha and K.M. Born (U.S.A.) 300
Lipoxin formation in fish leucocytes
A.F. Rowley (U.K.) 303
Lipid conjugates of antiretroviral agents: release of antiretroviral nucleoside monophosphates by a nucleoside diphosphate diglyceride hydrolase activity from rat liver mitochondria
G.M.T. Van Wijk, K.Y. Hostetler and H. Van den Bosch (The Netherlands, U.S.A.) 307

Cumulative Contents, Vol. 1084 311
